CORON AIR
CARBON MIPS

A carbon-fiber shell combines with a multi-impact liner and Mips for lightweight performance, protection and all-day usability.

DETAILS_

- Mips Evolve**
The rotational impact protection system featuring the well-known yellow low-friction layer.
- Multi-impact liner**
An EPP liner gives multi-impact protection.
- Carbon-fiber shell**
The outer shell is constructed from carbon fiber to ensure exceptional strength and low weight.
- Ear chambers**
Specific ear chambers minimize the impact of wearing a full-face helmet on hearing and balance.
- Breakaway peak**
The helmet's peak has been remodelled for improved performance and will break away naturally in a fall.
- Innovative ventilation**
The innovative airflow channels through the helmet work to keep the head cool at both high and low speeds.
- Removable cheek pads**
Cheek pads can be easily removed after a crash, making it easier for medical professionals to remove the helmet after injury.

DETAILS_

Mips Integra
Mips Integra seamlessly and almost invisibly integrates rotational impact protection into the helmet.

NFC Medical ID provided by twiCEme®
Medical info stored on the twiCEme® NFC Medical ID chip can easily be read by co-riders and first responders with a tap of a smartphone.

RECCO® reflector
A RECCO® reflector helps rescue services easily and quickly locate you if something goes wrong.

Dual-material liner
EPP in the lower part of the helmet improves durability and sustainability, while an EPS upper keeps weight low.

Injection-moulded liner
The lower part of the liner features an injection-molded cage for extra strength and stability.

Aramid bridges
Aramid bridges are molded to the helmet liner to enhance structural stability and improve penetration protection.

PC shell
The outer shell is constructed from PC to give exceptional durability.

Race lock
The Race lock integrated adjuster makes it easy to find a comfortable, secure fit.

Breakaway peak
A patented breakaway peak will snap off the helmet in a fall, enhancing neck protection.

The smooth underside is shaped to house a GoPro mount.

Highly ventilated
Ventilation is optimized to channel air through the helmet for comfort at both high and low speeds.

Removable cheek pads
Cheek pads are easy to remove while riding, giving more ventilation when on the climbs between enduro race stages.

--
Comes with a clip-on peak extension for more protection from mud and rain.

CERT. EN 1078, CPSC 1203, AS/NZS 2063, ASTM F1952, ASTM2032 AND NTA8776 (EXCEPT XS)

AXION

Finely tuned trail protection with patented technology and full adjustability for comfort and security.

DETAILS_

- EPS liner**
A lightweight EPS liner gives optimized protection.
- Unibody shell**
The unibody PC shell enhances the structural integrity of the helmet.
- Adjustable 360° fit**
A 360° adjustment system makes it easy to find a secure, comfortable fit.

- Patented breakaway peak**
A patented breakaway peak will snap off in a crash to enhance neck protection and reduce the chance of injury.
- Optimized ventilation**
Ventilation channels are optimized to ensure airflow and comfort on even the hottest rides.
- Extended protection**
Extended zones around the temples and back of the head give extra protection in risk areas.

OCTAL X MIPS

An extended shell gives gravel and cyclocross riders extra protection in this highly ventilated helmet.

DETAILS_

- Mips Evolve**
The rotational impact protection system featuring the well-known yellow low-friction layer.
- RECCO® reflector**
A RECCO® reflector helps rescue services easily and quickly locate you if something goes wrong.
- EPS liner**
A lightweight EPS liner gives optimized protection.
- Aramid bridges**
Aramid bridges are molded to the helmet liner to enhance structural stability and improve penetration protection.
- Unique ventilation design**
Fewer, larger vents support cooling and aerodynamic efficiency.
- Eye garage**
Specific high-friction pads to the front of the helmet mean it is easy to securely store sunglasses while riding.
- Fully wrapped unibody shell**
The fully wrapped unibody PC shell enhances the structural integrity of the helmet.
- Adjustable 360° fit**
A 360° adjustment system makes it easy to find a secure, comfortable fit.

VENTRAL MIPS

Aerodynamic performance, safety and ventilation work together to keep the Ventral MIPS at the cutting edge of protection.

DETAILS_

- Mips Integra**
Mips Integra seamlessly and almost invisibly integrates rotational impact protection into the helmet.
- EPS liner**
The EPS liner is optimized to provide crash protection at a low weight.
- Unibody PC shell**
The fully wrapped unibody PC shell improves the structural stability and enhances helmet integrity.

- Adjustable 360° Fit**
A lightweight 360° adjustment system makes it easy to find a secure, comfortable fit.
- Airflow ventilation**
The innovative airflow design pushes air through the helmet for exceptional ventilation.
- Venturi-inspired airflow**
The helmet's airflow zones are inspired by the Venturi effect to reduce drag.

- CFD Ttested**
Unique aero design optimized through extensive CFD testing to minimize turbulence.
- 22° trailing edge**
Residual air travelling around the helmet is controlled by a 22° aero trailing edge: the perfect angle for minimizing turbulence.
- Eye garage**
Specific high-friction pads to the front of the helmet mean it is easy to securely store sunglasses while riding.

+ WIDE FIT

VENTRAL LITE

Optimized protection weighing less than 200g: the Ventral Lite is for when every gram counts.

DETAILS_

Extremely lightweight
Weighing less than 200g in a size M (EN1078 safety standard), the helmet is among the lightest ever produced.

Structurally strong
Changes to the shell and liner design give enhanced structural integrity at a low weight.

Lightweight EPS liner
The shape of the liner allows for a lower-density EPS liner to be used.

Lightweight in-mold PC shell
The outer PC shell is scaled back to cover only the absolutely necessary parts of the liner, saving vital grams.

Lightweight size adjustment system
The minimalist size adjustment system is very lightweight and gives a secure fit.

Highly ventilated
The helmet is highly ventilated, making it an ideal choice for hotter days or for climbing.

Lightweight straps
The straps and clip are fully adjustable, and are optimised to save weight.

Included in box
Stick-on eye garage patches.

VENTRAL TEMPUS MIPS

The Ventral Tempus MIPS ensures you have the edge on the conditions throughout winter training, combining coverage with weather protection and visibility.

DETAILS_

Mips Integra
Mips Integra seamlessly and almost invisibly integrates rotational impact protection into the helmet.

EPS liner
The EPS liner is optimized to provide crash protection at a low weight.

Fully covered PC shell
The fully covered unibody PC shell gives wind, rain and snow protection, and improves structural stability.

Adjustable 360° fit
A lightweight 360° adjustment system makes it easy to find a secure, comfortable fit.

Internal airflow channels
Uniquely designed internal airflow channels provide ventilation.

22° trailing edge
Residual air travelling around the helmet is controlled by a 22° aero trailing edge: the perfect angle for minimizing turbulence.

Reflective detailing
Reflective detailing makes it easier for others to notice you while riding in low light.

VENTRAL AIR MIPS NFC

The ideal helmet for adventure or wilderness rides thanks to the inclusion of the NFC Medical ID provided by twICEme®; this is the helmet that can speak for you when you can't.

DETAILS_

- Mips Integra**
Mips Integra seamlessly and almost invisibly integrates rotational impact protection into the helmet.
- NFC Medical ID provided by twICEme®**
Medical info stored on the twICEme® NFC Medical ID chip can easily be read by co-riders and first responders with a tap of a smartphone.
- EPS liner**
The EPS liner is optimized to provide crash protection at a low weight.

- Unibody PC shell**
The fully wrapped unibody PC shell improves the structural stability and enhances helmet integrity.
- Adjustable 360° fit**
A lightweight 360° adjustment system makes it easy to find a secure, comfortable fit.
- Internal airflow channels**
Uniquely designed internal airflow channels provide ventilation at high and low speeds without impacting aerodynamic performance.

- CFD tested**
Unique aero design optimized through extensive CFD testing to minimize turbulence.
- 22° trailing edge**
Residual air travelling around the helmet is controlled by a 22° aero trailing edge: the perfect angle for minimizing turbulence.
- Eye garage**
Specific high-friction pads to the front of the helmet mean it is easy to securely store sunglasses while riding.

OCTAL MIPS

An evolution in protection when it was first released, this modern classic among road cycling helmets is now updated to include Mips.

DETAILS_

- Mips Evolve**
The rotational impact protection system featuring the well-known yellow low-friction layer.
- EPS liner**
An optimized high-performance EPS liner keeps weight low.
- Fully wrapped unibody shell**
The fully wrapped unibody PC shell acts as a monocoque for structural stability.

- Generously ventilated**
The instantly recognizable ventilation design is optimized for airflow at any speed.
- Lightweight size adjustment system**
The size adjuster spans the circumference of the head for a secure, comfortable fit.
- Eye garage**
An eye garage in the front ventilation ports gives secure storage for sunglasses while riding.

CEREBEL

Designed and engineered to improve aerodynamic performance, the Cerebel performs in a wide range of body positions.

DETAILS_

- CFD tested**
Extensive CFD simulations and evaluations helped us develop a highly aerodynamic helmet that works in numerous body positions.
- Wind tunnel tested**
Wind tunnel testing proved the helmet's overall aerodynamic performance.
- EPS liner**
The high-performance EPS liner is optimized for competition.

PC upper shell
The outer shell is lightweight PC enhances the structural integrity of the helmet.

- Molded EVA rear**
The lower part of the rear of the helmet is in soft molded EVA for more comfort behind the neck.
- Size adjuster**
Make it easy to find a precise, secure fit.
- Detachable visor**
The detachable visor from Zeiss is held in place using a magnetic attachment system, making it easy to remove.

PROCEN

Lightweight, aero and ventilated, the Procen utilises the Venturi effect to manage airflow around the head for absolute speed, bringing increased comfort and heat control when in the demanding time trial position.

DETAILS_

- EPS liner**
The EPS liner is optimized to provide crash protection at a low weight.
- PC shell**
The outer PC shell is lightweight and enhances the structural integrity of the helmet.
- CFD tested**
Extensive CFD testing and evaluation helped ensure the helmet is as fast as possible.
- Track tested**
The helmet's design and ventilation have been put to the test on track to ensure both speed and comfort.
- Molded EVA zone**
The lower zone of the rear of the helmet is molded in malleable EVA to improve comfort behind the neck.
- Venturi-inspired airflow**
The helmet's airflow zones are inspired by the Venturi effect to reduce drag and improve all-round aerodynamics.
- Distinct trailing edge**
The helmet's sharp and distinct trailing edge pushes air away from the shoulders to ensure air moves in the best possible direction.
- Detachable visor**
The detachable visor features short

- temples that snap into the helmet for security.
- Breakaway visor**
If the visor gets pushed in towards the face, it will break away from the helmet for improved safety.
- Lens start position function**
The 2-position lens can sit around 10mm away from the helmet to prevent fogging at the TT start gate. It can also be pushed out mid-ride to improve airflow.
- Removable lens**
The lens can easily be removed mid-ride if dirt or rain drops begin to obstruct your view.

MYELIN

Engineered to be deconstructed, the Myelin cuts away the complexity and uses distinct materials to create a helmet where it's possible to minimise all kinds of impact.

DETAILS_

Engineered to be deconstructed
The helmet can be deconstructed to separate all materials used for easier recycling where possible.

EPS liner
A lightweight EPS liner gives optimized protection.

Fabric shell
An outer shell in fabric reduces use of plastics and improves recyclability.

Glue-free construction
Built with as few different pieces as possible, the helmet's materials hold each other securely in place.

Snap adjuster
A simple snap adjuster combines with elastic sections in the straps to provide a secure fit that can be left untouched when putting on or taking off the helmet.

Ventilation
A network of holes in the top of the helmet allow heat to escape.

CORPORA

Built for the rigors of daily commuting, the Corpora is highly durable and easy to use in the city.

DETAILS_

EPS liner
The helmet's EPS liner is optimized for city use.

ABS shell
An outer shell of ABS gives extra durability, scratch and dent protection.

Dial adjuster
A dial adjust makes it easy to find a comfortable, secure fit.

Directional ventilation
Ventilation channels ensure air flows through the helmet and combine with openings at the top to keep your head cool without letting rain in.

Reflective details
Reflective stripes to the front and rear make it easier for others to see you in low light.

BIO-GRILAMID

ASPIRE POCITO

Scaled for younger riders, the Aspire POCito gives young ones a performance frame with lenses optimized for the specific needs of eyes that are still developing.

DETAILS_

Bio-grilamid frame
Lightweight, strong, durable and made from majority renewable sources.

Adjustable nosepiece
A soft, adjustable nosepiece in grippy rubber makes it easy to find a secure fit.

Adjustable temples
Adjustable temples in grippy rubber give a secure, comfortable fit.

Snap hinges
Snap-in hinges allow temples to break away from the lens in a fall, minimizing damage. They can easily be snapped back in place.

Kidz By Zeiss lens
Lenses developed especially for children give protection with no color distortion.

UV400
Complete UVA and UVB protection.

Anti-scratch treatment
Keeps the lenses free from blemishes that affect vision.

INCLUDED IN BOX:

SOFT CARRYING POUCH/
CLEANING CLOTH

HARD CASE

ARTICLE NO. ASP2015

BIO-GRILAMID

EVOLVE

The Evolve sunglasses have been specifically developed for protection tailored to the unique needs of children.

DETAILS_

Bio-grilamid frame (58% bio material)
Lightweight, strong, durable and made from majority renewable sources.

Snap-in hinges
Snap-in hinges ensure the temples can easily snap away from the rest of the frame in a fall, minimising damage.

UV400
Complete UVA and UVB protection.

KidZ by Zeiss lenses
Lenses developed especially for children give protection with no color distortion.

Detachable lanyard
The lanyard fixes to the temples, giving extra security.

Anti-reflective lens coating
An anti-reflective coating helps children get a clearer picture of what they see.

Ri-Pel™
Ri-Pel™ protects from dirt, water, sweat, salt, oil and dust, and makes the lenses easier to keep clean.

POCITO VPD
AIR VEST

A child-specific vest featuring lightweight and breathable VPD Air back protection that conforms to EN1621:2 Level 1 certification.

DETAILS_

- VPD Air backplate**
Lightweight, flexible and ventilated back protector conforms to EN1621:2, Level 1 Certification.
- Ventilated mesh**
The back of the vest features a ventilated mesh for comfort and to allow heat to escape.
- Small front chest pocket**
Store a small snack or a TRAX GPS locator device.

- Full-length zip**
Makes it easy for children to get the vest on and off.
- Hanger loop**
Inside back collar.

NEW

OTOCON FABIO ED.

With a design inspired and developed by the inimitable Fabio Wibmer, the Otocon Fabio Edition inspires creativity and the inspiration to do things differently.

HIGHLIGHTS

- Breakaway peak
- Innovative airflow channels
- Removable cheek pads

ARTICLE NO. 10840

CERT.

EN 1078, CPSC 1203, AS/NZS 2063, ASTM F1952, ASTM2032 AND NTA8776 (EXCEPT XS)

DETAILS

Dual-material liner

EPP in the lower part of the helmet improves durability and sustainability, while an EPS upper keeps weight low.

Injection-moulded liner

The lower part of the liner features an injection-molded cage for extra strength and stability.

PC Shell

The outer shell is constructed from PC to give exceptional durability.

Race Lock

The Race Lock integrated adjuster makes it easy to find a comfortable, secure fit.

Breakaway peak

A patented breakaway peak will snap off the helmet in a fall, enhancing neck protection. The smooth underside is shaped to house a GoPro mount.

Highly ventilated

Ventilation is optimized to channel air through the helmet for comfort at both high and low speeds.

Removable cheek pads

Cheek pads are easy to remove while riding, giving more ventilation when on the climbs between enduro race stages.

Removable grill

The grill in the chin piece protects the face from mud splashes. It can be removed for better airflow in warmer, drier conditions.

TECTAL FABIO ED.

Trusted POC protection with designs developed by the inimitable and inspirational Fabio Wibmer.

DETAILS_

RECCO® reflector
A RECCO® reflector helps rescue services easily and quickly locate you if something goes wrong.

EPS liner
A lightweight EPS liner gives optimized protection.

Unibody shell
The unibody PC shell enhances the structural integrity of the helmet

Adjustable 360° fit
A 360° adjustment system makes it easy to find a secure, comfortable fit.

Wind-tunnel tested ventilation
The helmet's ventilation has been optimized in a wind tunnel for maximum efficiency.

Adjustable peak
The helmet peak can be adjusted for personalized protection from the elements.

Eye garage
It's easy to securely store sunglasses in the ventilation holes at the back of the helmet.

Extended protection
Extended zones around the temples and back of the head give extra protection in risk areas.

CRANE MIPS FABIO ED.

Approaching every obstacle with creativity and the inspiration to do things differently has always been the ethos we have shared with Fabio Wibmer.

DETAILS_

Mips Evolve
The rotational impact protection system featuring the well-known yellow low-friction layer.

Dual-density liner
Two densities of EPS are used in the helmet liner to better manage a wider range of impact forces and ensure a progressive stop after any impact.

Durable PC Shell
An extra thick and highly durable outer shell in PC gives better protection from knocks, dents and damage.

Adjustment system
The easy-to-use size adjuster ensures every user can find a comfortable and secure fit.

ORA CLARITY
FABIO ED.

Fabio's choice of a white and gold colorway gives the Ora Clarity goggle a distinctive appearance.

DETAILS_

Cylindrical lens
Gives a clear, undistorted view.

Large field of view
The wide lens gives exceptional peripheral vision.

Clarity lens
A Clarity trail lens enhances greens and browns and sharpens contrast for uncompromised vision anywhere on the trail.

Interchangeable lens
The lens can easily be removed and swapped.

Triple-layer face foam
Gives a soft and comfortable fit against the face.

Malleable frame
The soft frame adapts to different face shapes.

Ventilated frame
Minimizes fogging.

Adjustable strap
The broad strap can be easily adjusted for a secure fit against a helmet.

CLARITY
SUNGLASSES

Clarity™ is POC's innovative lens program. Designed to control the color spectrum for enhanced contrast and color definition. All combinations of tints, mirrors and technology have been carefully selected to minimize glare and to utilize the full effect of the base tint benefits. All to ensure vision can stay sharp when riding in extreme conditions, even the changing ones.

CLARITY
ROAD

Clarity Road lenses have specific tints that are optimized for the road environment. The lenses increase contrast on the road surface for sharper definition and allow the rider to react earlier to surface irregularities.

CLARITY
TRAIL

Clarity Trail lenses have tints which are specifically designed to enhance contrast and boost trail associated colors, such as green and brown. MTB riding is often subject to abrupt changes in light and shadow and as such the lenses are optimized for variable light conditions.

CLARITY
DEFINE

Clarity Define lenses are optimized for all-round use, giving sharper contrast and definition across a broad range of colours and light conditions.

CLARITY
PHOTOCHROMIC

Clarity Photochromic lenses are clear indoors and darkens automatically when exposed to sunlight. The molecules coated on the lens surface are activated by the sun's ultraviolet radiation, causing the lens to darken based on the prevailing light.

OPSIN MTB

Offering complete eye protection and a very large field of view, the Opsin MTB gives both comfort and security in all conditions.

DETAILS_

- Cylindrical Lens**
The cylindrical lens shape sits an even distance away from the eyes to minimise distortion.

Anti-scratch treatment
An anti-scratch treatment on the outer lens reduces the risk of surface damage for clearer vision.

Anti-fog treatment
An anti-fog treatment on the inner lens helps reduce internal fogging.
- Complete UV Protection (UV 400)**
The goggles give complete protection from harmful UVA and UVB rays.

Triple-layer face foam
Multiple layers of foam ensure a soft and comfortable fit, perfectly molding to the contours of your face.

- Silicone grippers**
Silicone grippers on the inside of the strap help keep the goggles secure against a helmet.

Zeiss Double Lens
A double lens from Zeiss improves durability, strength and the visual experience.

Weight
150 g

OPSIN YOUTH

Featuring lenses developed specifically for mountain biking, the Youth Opsin MTB are optimized for younger riders and give a very wide field of view in a comfortable, cushioned frame.

DETAILS_

- Complete UV Protection (UV 400)**
The goggles give complete protection from harmful UVA and UVB rays.

MTB-specific lens
The grey-shaded lens is developed specifically for mountain biking.

Durable lens materials
An inner lens of cellulose propionate (CP) and polycarbonate (PC) outer lens give durability and eye protection.
- Soft frame**
The soft coated poly-urethane (PU) frame gives flexibility for the right fit.

Cylindrical lens
The cylindrical lens sits an even distance away from the eyes to minimise distortion.

Adjustable strap
The broad strap can be easily adjusted for a secure fit against a helmet.

OSEUS VPD JACKET

Complete upper body protection that gives a feeling of invincibility so you can find the confidence to try new challenges.

DETAILS_

Oseus VPD

A thicker yet highly flexible and well-ventilated protector certified to the toughest standards.

Complete upper body protection

Pads cover the chest, back, shoulders and elbows.

Zip-free chest

A single VPD plate covers the whole chest; there's no break in protection for a zip.

Side zippers

Zipper on each side from the waist to the underarm make it easier to get the jacket on and off.

3D Mesh

A 3D mesh material enhances ventilation.

Wicking fabrics

Allow moisture to move away from the body for dryness and comfort.

Rear storage pockets

Zippered card pocket

Hanger loop

OSEUS VPD SHORTS

An ideal choice when practising new tricks or jumps in the park, or for any rider looking for more thigh and tailbone protection, the Oseus VPD Shorts give lightweight, certified protection, warmth and comfort.

ARTICLE NO. 20389

DETAILS_

VPD padding
Lightweight padding covering the tailbone and outer thighs, certified to EN1621-1, Level 1 standards.

Wool Blend
A blend of wool and polyester perfectly balances warmth and thermal regulation with performance properties.

Long leg length
An inseam length of 24.5cm (size M) ensures the shorts do not twist or move out of position, even during strenuous activities.

Soft waistband
A soft, wide waistband featuring a debossed POC logo gives a secure fit.

Hanger loop
A hanger loop on the rear of the waistband makes it easy to hang the shorts to air dry.

Weight

SYNOVIA VPD SHORTS

Find extra comfort and security on the trails with lightweight, highly flexible protection in risk zones. Ideal for e-bike riders or wet conditions, the shorts give extra protection necessary for higher speeds.

DETAILS_

VPD Air
Lightweight, highly ventilated comfort padding covering the outer thigh and tailbone.

Chamois
A soft chamois pad enhances saddle comfort.

Lightweight fabrics
Highly ventilated fabrics wick moisture away from the body and make the shorts an ideal under layer.

Longer leg
An inseam of 26cm (M) ensures the shorts sit as they should for the duration of a ride.

Hanger loop
Makes it easy to hang the shorts to air dry after use.

PFC-FREE DWR RECYCLED POLYAMIDE

VPD AIR FLOW KNEE

Soft, comfortable and secure, the VPD Air Flow Knee takes a new approach to fit in order to boost comfort, security and freedom of movement.

DETAILS_

- Certified protection**
Protection certified to EN1621-1, Level 1 Standards.
- Lightweight**
Weighing just 110g per pad, the protectors give a barely-there feel.
- Low profile**
The thin pads have no unnecessary bulk, sitting close to the body and ensuring absolute freedom of movement.

- Minimal seams**
Just two seams on the entire pad improve next-to-skin comfort.
- Longer leg**
Stretching higher up the leg, the pads give a comfortable and secure fit similar to that of bib shorts.
- Material**
Main fabric:
100% Recycled TPU protector piece
65% Recycled polyamide

RECYCLED POLYAMIDE RECYCLED POLYESTER

COLUMN VPD
BACKPACK 13L

The perfect size for a full day on the trail, the pack is chiefly constructed from recycled fabrics and combines a back protector with enough space for a hydration system and all your ride essentials.

DETAILS_

VPD Air protector
46cm-long lightweight and ventilated back protector giving certified protection.

Recycled fabrics

Works with hydration systems
Bladders with a volume of up to 3L will fit.

Tool sleeves
Sleeves in the main compartment keep tools secure.

Secure, adjustable fit
Adjustable sternum and shoulder straps keep the bag secure without the need for a waist strap.

Chest pockets
Two pockets on the chest strap.

Key hook
Stops keys getting lost.

3D Mesh
Ventilated, structured 3D mesh on the straps improves comfort.

Removable helmet net
Makes it easy to carry a helmet.

HIP PACK HYDRO 4L

Giving enough space to store your ride essentials and a large bladder to keep you hydrated on hotter days or longer rides, this pack ensures you can ride freely all day long.

DETAILS_

- Internal bladder**
A large (1.5L) bladder has its own compartment in the pack.
- External compression straps**
Compression straps keep belongings secure and ensure the pack sits close to your body. They can also store knee pads on long climbs.
- Convertible**
The smaller side pockets can be absorbed into the main pocket to create a smaller pack. Straps can be added to create a bar bag.

- Tool Sleeves**
Sleeves in the main compartment keep tools organized and secure.
- Bladder straw compartment**
The straw threads down one strap and tucks into the other for safekeeping while you ride.
- Detachable straw**
The bladder straw can be detached so it can stay on the pack when you refill the bladder.
- Recycled materials**

- VPD padding**
Gives body protection from the bag's contents in a fall.
- Longer zip pulls**
- Reflective details**
- Materials**
Main fabric & Lining: 100% Recycled polyamide
Inside: Pocket 85% Recycled polyamide
- Weight**

LAMINA HIP PACK

With enough room for ride essentials, the hip pack gives compartmentalized storage to keep everything secure, and features VPD next to the body to protect the body from the bag's contents in a fall.

DETAILS_

- Compartmented storage**
Keep tools, snacks and other essentials separate and secure.
- Tool Sleeves**
Sleeves in the main compartment keep tools organized and secure.
- Internal compression strap**
Keeps all belongings securely in place in the main pocket.
- Padded smartphone pocket**
Large enough for very large smartphones. A water-resistant zip keeps the water out.

- Hip pockets**
Ideal for small snacks. Easy to access while riding.
- VPD padding**
Gives body protection from the bag's contents in a fall.
- Recycled materials**
The majority of fabrics used are recycled.
- Longer zip pulls**
Easier to use while wearing gloves.

- Reflective details**
- Material**
Main fabric: 100% Recycled polyamide
Back: 92% Polyester
8% elastane
Lining: 100% Recycled polyamide
Inside pocket: 85% Recycled polyamide

M'S SIGNAL ALL-WEATHER JACKET

With integrated protection for extra security on any adventure, this jacket has your back when you go further.

DETAILS_

Waterproof
The 3-layer waterproof jacket has a 20 000mm water column.

Breathable
Moisture vapour permeability of 20 000 gsm/24hr ensures you'll stay dry from the inside.

Packable
The jacket can be packed into its own pocket and secured to a handlebar.

Optimized fit
Ergonomic cut follows the body; yoke piece cut on bias gives extra movement.

Durable
A Ripstop finish improves durability.

Adjustable hood
The hood fits under a helmet and can be rolled up and secured in place while not in use.

Ventilated jacket
Open ventilation zones under the arms and on the back improve comfort.

Soft Jersey finish
A soft jersey finish on the inner ensures you stay comfortable on the longest rides.

Material
100% Polyamide

Weight
240 g

XS, S, M, L, XL, XXL

ARTICLE NO. 52314

GUARDIAN AIR JACKET

Keep the wind under control, and find your flow every time you hit the trails in the lightweight, flowy Guardian Air Jacket.

DETAILS_

Lightweight and breathable
A lightweight, breathable fabric weighing 120g/m2 and with good wicking properties has 4-way stretch for comfort and flexibility.

Highly durable
The material is blended with highly durable Cordura® material to minimise the chances of ripping. Ripstop zones further enhance durability.

Helmet-compatible hood
The hood fits under a helmet and can be secured when not in use.

Wind and water protection
The jacket features a windbreaking material treated with a fluorocarbon free DWR treatment for light shower protection.

Loose fit
A looser fit gives room for body armor and ensures freedom of movement.

Secure storage
Zipped pockets on the chest and to the rear give plenty of secure storage.

Material
73% Polyamide Cordura®
15% Polyamide
12% Elastane

Weight

PFC-FREE DWR

M'S MOTION
RAIN JACKET

Versatile, durable rain protection for commuting in the city or heading out on the trails. A close-fitting hood that fits under a helmet and a casual cut make the jacket ideal for use on or off the bike.

DETAILS_

- Waterproof**
Lightweight 3-layer Nylon 6.6 combined with a fluorocarbon free DWR treatment ensures water stays out.
- Durable**
A Ripstop construction enhances durability.
- Secure storage**
Zipped hand pockets and a zipped chest pocket ensure belongings stay secure.

- Helmet-compatible hood**
The hood fits comfortably under a helmet.
- Ventilated**
Perforated zones under the arms enhance airflow and ventilation.
- Reflective Details**
Reflective detailing improves noticeability in low light.

- Casual fit**
Gives a relaxed style in the city and room for body armor underneath while on the trails.

PFC-FREE DWR

MOTION WIND
JACKET

A lightweight and highly versatile breathable wind jacket cut for functionality and performance in urban settings or on the trail.

DETAILS_

- Wind blocking**
The lightweight material gives good wind blocking properties yet retains breathability for comfort and to prevent overheating.
- Splash protection**
A fluorocarbon free DWR treatment gives protection from spray and light showers.
- Helmet-compatible hood**
The hood fits comfortably under a helmet.

- Stretch**
The Nylon-Spandex blend gives 4-way stretch for comfort, freedom of movement and breathability.
- Chest pocket**
A zipped chest pocket gives some secure storage.
- Reflective Details**
Reflective detailing improves noticeability in low light.

- Casual fit**
Gives a relaxed style in the city and room for body armor underneath while on the trails.
- Material**
82% Nylon
18% Spandex

M'S REFORM ENDURO JERSEY

An environmentally conscio-
us balance of performance,
practicality and comfort in a
jersey made using recycled
materials.

DETAILS_

Recycled materials
Recycled polyester weighing 220g/
m² keeps the jersey lightweight and
reduces environmental impact.

Quick Drying
The long-sleeve jersey has
exceptional wicking qualities and is
quick to dry.

Works with body armor
The regular fit is cut to give space
for both a back protector and
elbow pads.

Secure Card Pocket
A discreet, zipped pocket on the
lower left seam is ideal for a lift
card or small snack.

M'S MANTLE
THERMAL HOODIE

As the seasons change, as temperatures fluctuate, call on the Mantle. Stretchy, insulative recycled polyamide gives warmth and durability, making this a natural support on the trails throughout the cooler seasons.

DETAILS_

- Recycled polyamide**
The woven double-layer material has a stretchy and insulative inner for comfort and warmth, and a durable outer to withstand damage from trailside obstacles.
- Weather protection**
The wind resistant material is treated with a fluorocarbon free DWR to keep light showers out.
- Brushed inner**
Enhances comfort and warmth.
- Helmet compatible hood**
The close-fitting hood can be worn under a helmet.
- Grippy cuffs**
Wide Lycra cuffs ensure the sleeves don't slip down if pulled up the forearms.
- Sunglasses holder**
Secure storage for sunglasses – ideal to use if checking a map or asmartphone.

- Zippered card pocket**
Gives discreet and secure storage of a bank or lift card, or a small snack.
- Material**
Recycled polyamide, exclusive of trimmings.
- Weight**
320 g

POISE HOODIE

Functional, technical, casual, and always ready to perform, the Poise Hoodie means you can always be dressed right for a ride.

DETAILS_

Japanese Delta-Peak™ Polyester
An exclusive polyester with a technical hand feel.

Resistant to snagging
The outer is particularly resistant to snagging, meaning it's less likely to get damaged by trailside obstacles.

Loose Fit
A looser fit ensures optimum freedom of movement and gives room for body armor.

Discreet logos
A debossed POC logo on the chest and woven label to the rear keep branding discreet.

Secure card pocket
A discreet, zipped pocket on the lower left seam is ideal for a lift card or small snack.

PFC-FREE DWR

ROUSE SHIRT

Always be dressed to ride. Combining a relaxed, casual style with highly technical and functional properties, the shirt gives freedom, comfort and means you can always have the right clothing for a ride.

DETAILS_

- Durable comfort**

The durable polyamide twill with stretch gives exceptional comfort as well as freedom of movement.
- Weather protection**

The material is treated with a fluorocarbon free DWR to keep light showers out.
- Casual fit**

The loose and casual fit works as well in the city as it does with body armor underneath while on the trail.

- Ideal outer layer**

The loose fit gives comfort over a base layer, with enough room underneath to use elbow protectors.

Front pocket

A chest pocket gives space to carry small essentials.
- Sunglasses holder**

Secure storage for sunglasses – ideal to use if checking a map or a smartphone.

CONSORT MTB DUNGAREE

As close a companion as you could ever need, the Consort is there with you when the going gets rough. Developed for the very wettest and muddiest conditions, the dungarees give extra protection to keep you warm and dry.

DETAILS_

- Highly durable**

A 3-layer stretch weave fabric reinforced with Cordura® gives ultimate durability and weather protection while maintaining comfort and freedom of movement.
- Weather protection**

Material with a 15 000mm water column combined with a fluorocarbon free DWR treatment keeps water out.
- Highly breathable**

Moisture vapour permeability of 30000gsm/24hr.

- Adjustable fit**

A waist adjuster and adjustable elasticated suspenders ensure a secure, comfortable fit.
- Zipped sides**

Control airflow and ventilation, and make it easier to get the dungarees on and off.
- Secure storage**

A chest pocket, zipped hand pockets and a zipped card pocket give plenty of secure storage options.

- Ergonomic fit**

Cut to work with body armor and ensure a free pedalling motion. A crotch gusset enhances saddle comfort.

PFC-FREE DWR

W'S INFINITE
ALL-MOUNTAIN
SHORTS

Flexible and durable shorts that give the freedom of movement you need for every style of riding.

DETAILS_

- Highly durable**
The material is blended with highly durable Cordura® for improved resilience.
- Reinforced Seat**
Highly durable Nylon with Ripstop features in the seat to keep your shorts together, even when you hit the ground.
- Water repellent**
The shorts feature a fluorocarbon-free DWR treatment so light showers will pearl off the fabric.

- Ergonomic**
Cut ergonomically for a comfortable and free pedalling motion, and to fit with body armor. Includes a seam-free gusset for enhanced saddle comfort.
- Adjustable ventilation**
Zipped openings on the thighs allow you to control your own ventilation.

- Secure storage pockets**
Envelope closures on the leg pockets and a zipped card pocket to the rear keep your belongings secure.
- Material**

Y'S XC JERSEY

Giving young riders the same quality and performance as adult riders, the Youth XC jersey adds small details to enhance comfort.

DETAILS_

Highly versatile

This lightweight jersey gives comfort and performance for everything from XC and trail riding to roads.

Recycled Polyester

The jersey is constructed using recycled polyester.

Breathable

The structured mesh is ventilated, breathable and quick to dry.

Zipper placket

A placket behind the full-length zipper improves comfort against the skin.

Large pockets

Three large rear pockets are easy to access and give plenty of room for ride essentials.

Soft collar

A soft collar enhances comfort around the neck.

Soft cuffs

A folded hem on the sleeves ensures children feel as comfortable in the jersey as they do in their favourite t-shirt.

PFC-FREE DWR

THE SUPREME RAIN JACKET

Could this be the lightest ever rain jacket for cyclists? Developed using a highly advanced 3-layer waterproof fabric weighing just 51gsm, the jacket itself weighs 85g yet can withstand the heaviest rainstorms.

DETAILS_

Exceptionally lightweight
The lightest rain jacket we have ever made, weighing 87g in a size M.

Fully waterproof
Constructed using a waterproof 3-layer fabric with 20 000mm water column, and featuring fully glued seams as well as a fluorocarbon free DWR treatment.

Highly breathable
A moisture vapour permeability level of 50000gsm/24hr ensures heat and sweat can easily escape, to keep you dry from the inside.

Easily stowable
The jacket can easily be folded into the integrated pocket on the collar for easy storage.

Articulated fit
Ensures comfort in an aggressive position on the bike.

Material
100% Polyester

Weight
87 g

HAVEN RAIN JACKET

Find your haven in any storm, with the protection that ensures you can carry on.

DETAILS_

Breathable rain jacket
Moisture vapour permeability of 20 000gsm/24hr ensures dryness on the inside no matter how hard you push.

Lightweight
The jacket is constructed using a lightweight mini ripstop polyamide weighing 58g/m².

Ventilated
Open ventilation zones on the back and under the arms improve airflow for optimal temperature control.

Reflective detailing
Reflective pocket cords, sleeve openings and POC logo make it easier for others to see you in low light.

Natural stretch
The yoke piece across the shoulders is cut on the bias to utilise the material's natural stretch to give more flexibility with a closer fit.

Articulated fit
Ensures comfort in an aggressive position on the bike.

Elasticated openings
Elasticated sleeve openings and sections on the waist hem ensure the jacket sits comfortably and securely in place on any ride.

MUSE JERSEY

A Merino blend ensures a luxurious feel next to the skin, and enhances odor control while retaining exceptional wicking properties. With slightly longer sleeves than our other jerseys, the Muse has a classic, refined style.

DETAILS_

Merino blend

A blend of merino wool, polyester and polyamide in a double knit ensures the wool sits next to the body for maximum comfort.

Breathable

The fabric has good wicking and thermal regulation capacity to keep you dry on the inside.

Ample storage

Three large open rear pockets and

a smaller zipped pocket give plenty of space for ride essentials.

Emergency info panel

A small reflective tab with space for emergency contact info can be folded out of the rear left pocket.

Articulated fit

Ensures comfort in an aggressive position. An elasticated hem with silicone print keeps the jersey secure.

Reflective details

Rider visibility is improved in low light thanks to reflective details on the collar, back pocket and along the lower hem.

PFC-FREE DWR

W'S ESSENTIAL SPLASH JACKET

The ideal companion in changeable conditions, this jacket makes it easy to stay protected from wind and light showers, and easily slips into a jersey pocket when conditions improve.

DETAILS_

Packable

The lightweight material easily folds down so the jacket can be packed in its own pocket so it can easily be carried in a jersey pocket.

Weather protection

The stretchy, soft weave material gives exceptional wind protection while a PFAS-free DWR treatment protects from light rain showers and road spray.

Two-way zip

The full-length two-way zip gives easy ventilation control while also

making it easy to access jersey pockets.

Ventilated

Open slits in the armpits for better airflow and ventilation.

Mesh-lined collar

Enhances comfort around the neck.

Reflective detailing

Reflective details to the front and rear make it easier for others to see you in low light.

Secure fit

4cm-broad elastic at the bottom hem ensures the jacket stays comfortably and securely in place.

W'S THERMAL
LITE JERSEY

Giving optimum thermal regulation thanks to a merino blend, and slightly longer sleeves for a more classic style, the W's Thermal Lite provides comfort and performance across the seasons.

DETAILS_

Merino blend
A blend of merino wool, polyester and polyamide in a double knit ensures the wool sits next to the body for maximum comfort.

Thermal Regulation
The fabric has good thermal regulation properties and excels at wicking moisture away from the body to ensure a feeling of dryness.

Good storage
Three large open rear pockets and a smaller zipped pocket give plenty of space for ride essentials.

Articulated fit
Ensures comfort in an aggressive position. An elasticated hem with silicone print keeps the jersey secure.

CONCEPT THERMAL

Riding your bike all year around is not for the faint-hearted. It is cold, dark, wet, muddy and windy. We have grown up riding in harsh and changing conditions, and we've experienced just how decisive the right equipment can be. Our Thermal collection is a tribute to all the stubborn cyclists. Cyclists that know that true beauty can be found in the harshest moments.

PFC-FREE DWR

PRO THERMAL JACKET

Stay warm without overheating with this windproof, partially insulated jacket with exceptional wicking capabilities.

DETAILS_

Windbreaking

Lightweight windbreaking material with a fluorocarbon free DWR treatment for protection from light showers.

Partially insulated

Innovative octagonal insulating yarn fibers are more efficient at trapping heat and ensure the jacket gives warmth without overheating.

Hanger loop

Packable

The jacket can be folded into its own packet and secured to a bike using the attached straps.

Open ventilation

Open ventilation in the side panels supports temperature regulation.

Reflective detailing

Secure storage

Zippered pockets give security for ride essentials.

Articulated fit

An articulated fit gives comfort in an aggressive position. A yoke cut on the bias allows freer movement. The elasticated hem keeps the jacket secure.

Material

87% Polyamide
13% Elastane

PFC-FREE DWR

M'S THERMAL JACKET

Ideal for even the coldest conditions, the Thermal Jacket combines extra insulation with weather protection so you can ride in comfort long into winter.

DETAILS_

Thermal fabric

A thicker insulated and brushed fabric improves warmth and comfort on cooler days.

Functional storage

Three large, open, rear pockets and a smaller zipped pocket give plenty of easily accessible storage.

Breathable

The jacket's back is highly breathable to allow sweat and excess body heat escape.

Highly visible

The rear pockets are fully reflective, making a rider more noticeable in low light conditions.

Waterproof

The arms and front of the jacket feature a waterproof and breathable membrane. The entire jacket has been treated with a fluorocarbon-free DWR.

Emergency Info Panel

A small reflective tab with space for emergency contact info can be folded out of the rear left pocket.

Articulated fit

Allows comfort in an aggressive position. An elasticated hem with silicone webbing keeps the jersey secure.

THERMAL HEAVY BOOTIE

The natural choice for deep winter, the Thermal Heavy Bootie combines weather protection with warmth and visibility for maximum comfort and safety on long, cold, dark rides.

DETAILS_

Weather Protection

Constructed from a bonded, water-repellent stretch fabric and cut with a close fit to keep water out.

Brushed Inner

Feet stay warm thanks to an insulating brushed inner.

Abrasion Resistant Zone

Reinforced zones around the toe and the sole improve abrasion resistance.

Reflective Details

A reflective ankle opening and POC logo make it easier for others to see you while riding in low light.

Offset zipper

The placement of the waterproof zipper slightly offset from the centre of the ankle improves durability.

Laminated Toe Zone

Durability and weather protection is improved thanks to a laminated toe zone.

CONCEPT_ RACEDAY

We all know that marginal gains are real and that saving seconds takes years. That is why we optimize everything to the point where nothing more can be added or taken away. Whether you aspire to ride in the World Tour or are training for your first sportive, the aerodynamic Raceday collection is designed to perform on the days you need it the most.

M'S RACEDAY
JERSEY

This jersey feels fast, yet gives comfort that makes it wearable for every ride. An innovative inner structure creates micro channels between the skin and the jersey for better thermal regulation in all conditions.

DETAILS_

Lightweight materials

The polyester-elastane blend is lightweight with good stretch properties.

Structured inner

A structured inner creates microchannels between the jersey and the body, aiding thermal regulation.

Improved wicking capacity

The polyester is treated for improved wicking function and gives a feeling of coolness.

Sun protection

The jersey has an SPF rating of 50.

Large storage pockets

Three large, open, storage pockets give space for ride essentials. A mesh inner aids ventilation.

Slim collar

A slimline collar sits closer to the neck and aids the feeling of speed.

Next-to-skin fit

A compression feel and a shorter front give comfort in an aggressive position.

Longer arms

The short-sleeve arms extend closer to the elbow, enhancing the feeling of speed.

Hanger loop

M'S RACEDAY
BIBSHORTS

Giving the sense of absolute speed, the Raceday Bibshorts give ultimate support and comfort, as well as a high level of compression for extra support on longer rides.

DETAILS_

Optimised for speed

With exceptional stretch and compression, these bibs give comfort, support and a feeling of speed.

Contour chamois

The Contour VPDS chamois pad gives comfort and shock absorption.

Fully flatlock seams

Fully flatlock seams enhance comfort next to the skin.

Next-to-skin fit

For ultimate comfort in an aggressive position.

Seam-free suspenders

The extremely elasticated suspenders are completely seam-free for extra comfort.

Breathable mesh torso

Breathable mesh fabric on the torso improves comfort.

Reflective detailing

Small reflective detailing makes it easier for others to notice you in low light.

Silicone leg grippers

10 cm-wide leg grippers feature silicone dots to ensure a secure and comfortable fit.

W'S RACEDAY
BIBSHORTS

Combining a sense of absolute speed with ultimate support and comfort, the W's Raceday Bibshorts feature an entirely new chamois design giving more support and cushioning in different zones for comfort tailored specifically to the female anatomy.

DETAILS_

Optimised for speed
With exceptional stretch and compression, these bibs give comfort, support and a feeling of speed.

W's Purpose VPDS Pad
Improves support and leaves space in the central zone to improve bloodflow.

Reverse Suspender
A single, wider, suspender on the front and two traditional suspender straps on the rear increase ride comfort.

Overlap suspender
Exceptionally flexible, stretchy and breathable single-layer mesh fabric makes it possible to pull down the bibs without having to take off a jersey.

Seam-free suspenders
The extremely elasticated suspenders are completely seam-free for extra comfort.

Next-to-skin fit
For ultimate comfort in an aggressive position.

Fully flatlock seams

Silicone leg grippers
10 cm-wide leg grippers feature silicone dots to ensure a secure and comfortable fit.

TROLLEY 100L

Material
Main fabric:
100% Polyester
Lining: 100% Polyamide

Weight
3900 g

HIGHLIGHTS_

- Volume: 100L
- Hard base, padded sides and soft top with compression straps for easy volume adjustment.
- Retractable handle, two wheels for easy pulling.
- Sturdy handles on each side.
- Waterproof and highly durable 600D fabric.
- Light grey lining and large opening improve visibility

inside the bag.

CERT. EN 1621-2 LEVEL 1

VERSATILE
BACKPACK

Volume
20L

Material
100% recycled polyester

Weight
950 g

ARTICLE NO. 25125

DETAILS_

- **Capacity 20L**
The pack has a standard capacity of 20L, but can be expanded by approx. 4L when the rolltop is opened.
- **Secure carrying system**
The wide straps feature two lower attachment points for a more secure fit without the need for a waist band.
- **Fidlock®**
Magnetic Chest Strap
A magnetic chest strap attachment from Fidlock® helps keep the pack secure.
- **Recycled outer material**
The backpack uses X-Pac® RX15 fabric, which is highly durable, waterproof and features a recycled face fabric
- **Water resistant**
The main material is waterproof. Seams are minimised to reduce weak points where water may seap in. The pack features a PFAS-free DWR treatment to enhance water repellency.
- **Dual opening**
The main opening is via a roll top, with clips to keep the pack secure. A long vertical zip on the outside of the pack gives easy access while on the move.
- **Internal pockets**
Four small, zipped, internal pockets keepp valuable belongings secure. A key hook is included in one pocket.
- **Laptop sleeve**
A padded pocket is large enough for a 15" laptop.

SHORTS & PANTS

All our shorts and pants are developed for durability, practicality, comfort and protection. All are cut to work with knee pads and give exceptional comfort and coverage while pedalling. The material choices ensure the garments can withstand damage from falling.

	CONSORT MTB DUNGAREE	M'S/W'S ARDOUR ALL-WEATHER PANTS	RHYTHM RESISTANCE PANTS	RESISTANCE PRO DH PANTS	MOTION RAIN PANTS

BIBS

Bib shorts can make or break a ride, and the rider. Essential for performance and comfort whether on a short, intense criterium or a long endurance adventure, getting the right bib shorts is vital. We build all our bibs around our unique VPDS inserts with silicone in the chamois. They use silicone for shock and vibration absorption so you can sit more comfortably for longer.

DETAILS_

MULTI D

- Silicone based pre-cut VPDS inserts for reduced vibration and enhanced anatomic support.
- The fabric has bacteriostatic properties, which will keep your pad fresh over a longer time.
- Seamless design for comfort and support.
- Features recycled top fabric
- Perforated base layer for maximum ventilation.

DETAILS_

CATALYST

- Silicone based pre-cut VPDS inserts for reduced vibration and enhanced anatomic support.
- The fabric has bacteriostatic properties, which will keep your pad fresh over a longer time.
- Seamless design for comfort and support.
- Features recycled top fabric

DETAILS_

VPDS LITE PAD

- Silicone-based pre-cut VPDS inserts enhance anatomic support and improve pressure absorbency.
- Bacteriostatic properties keep the pad fresher for longer.
- Optimized for a more static position on the bike: slimmer, longer profile.
- Top-layer fabric optimized for indoor comfort – dries 2x faster than other pads so you feel drier for longer.
- Airy and perforated 3-layer pad for optimal breathability.

DETAILS_

M'S VITAL

- Longer pad gives additional support in the frontal area.
- The fabric has bacteriostatic properties, which will keep your pad fresh over a longer time.
- Silicone based pre-cut VPDS inserts for reduced vibration and enhanced anatomic support.
- Features recycled top fabric.
- Seamless design for comfort and support.

DETAILS_

M'S CONTOUR

- 3D-molded silicone-based VPDS inserts for reduced vibration and enhanced anatomic support.
- Additional support in the frontal area.
- 3D-shaped for maximum support and comfort.
- Bacteriostatic properties to keep the pad fresher for longer.
- Seamless design for comfort and support.
- Features recycled top fabric.

DETAILS_

M'S AGILITY

- Silicone-based VPDS chamois developed for ergonomic and shorter saddles, and optimized for gravel and adventure riding.
- A layer construction gives a slim profile for a precise connection to the bike, optimum feel and support.
- High-density zones support full pelvic rotation.
- Superior breathability and moisture management thanks to enhanced perforation across the chamois.
- Central channel supports blood flow and reduces pressure in the perineal area.
- Features recycled top fabric.

DETAILS_

W'S PURPOSE

- High-density padding at the front and silicone at the rear improves support for the pubis and ischium, enhancing comfort in an aggressive road cycling position.
- A large central cavity enhances comfort and allows for improved bloodflow in sensitive areas.
- VPDS silicone inserts lift the ischium improving support, absorbing vibrations and giving a more comfortable position on the saddle.
- Perforated cushioning enhances breathability and moisture control.
- Bacteriostatic properties keep the pad fresher for longer.
- Features recycled top fabric.

HELMETS_

ABS: ACRYLONITRILE BUTADIENE STYRENE

A very hard plastic used in the helmet shell. It is widely known for its impact resistance, strength and durability.

PC: POLYCARBONATE

Stiff and strong material used in the helmet shell. It is well suited to thermoforming to give a secure bond with the helmet liner.

EPP: EXPANDED POLYPROPYLENE

A helmet liner material that can withstand multiple impacts, dependent on the severity of the impact. EPP liners tend to be thicker than EPS liners.

TWICEME® NFC MEDICAL ID

The twlCEme® NFC Medical ID is an NFC chip located inside the helmet. By using the associated app, wearers can upload their vital info and emergency contact details directly to the helmet. These can then be read by first responders—or anyone—with a smartphone at the scene of an accident.

EPS: EXPANDED POLYSTYRENE

The traditional helmet liner material found in most helmets (from all manufacturers). Will compress under force, and tends to only be suitable for one crash. Lighter than EPP. EPS liners can be thinner than EPP liners because EPS has better impact resistance in terms of volume of material used.

ARAMID

Exceptionally strong synthetic fibers that provide unsurpassed protection against penetration and enhance the structural stability of a helmet.

FIBERGLASS

Strong and lightweight material used in the helmet shell. Highly durable and well suited to thermo-forming, to give a secure bond with the helmet liner.

CARBON FIBER

Exceptionally lightweight and very strong material used in the helmet shell.

UNIBODY SHELL

Where the helmet shell works as a monocoque to give extra strength and stability to the entire helmet.

ARMOR

VPD: Visco-elastic polymer dough

VPD is our highly flexible protective material, visco-elastic polymer dough. VPD retains its impact absorption ability regardless of number of impacts. VPD is malleable and shapes to the form of your body for a unique and flexible fit, only hardening on impact for enhanced protection

ARMOR_

VPD

VPD is our highly flexible protective material, visco-elastic polymer dough. VPD retains its impact absorption ability regardless of number of impacts.

VPD is malleable and shapes to the form of your body for a unique and flexible fit, only hardening on impact for enhanced protection.

APPAREL_

CERAMIC PRINT

Small ceramic dots printed on a fabric to enhance durability and crash protection. The dots work to minimize friction between rider and road surface in a fall, thereby minimizing road rash and reducing damage to the garment itself.

VECTRAN

Vectran, a material around 5x stronger than steel, is a liquid crystal polymer much like a strengthened polyester. Its high tensile strength gives excellent cut, tear, abrasion and puncture resistance.

CORDURA®

A high-Denier nylon yarn used for its exceptional durability and abrasion resistance.

AERO FABRIC

A textured fabric designed to minimize drag and make a rider more easily slip through the air.

VPDS

VPDS is our Visco-elastic Polymer Dough blended with silicone. Developed for its exceptional vibration dampening effect, we use VPDS in our bib short chamois to help deliver a smoother ride.

DWR

Durable water repellent. A treatment used on our apparel to prevent water being absorbed by the material. The DWR ensures liquid pearls off the material surface for water repellency, not complete waterproofness.

WATER COLUMN

The water column indicates the level of water pressure a fabric will tolerate before any water will pass through. The higher the water column, the more waterproof the material is.

BREATHABILITY

The level of water vapour that a material will allow to pass through. Generally the measure is given in grams per square meter per 24hours (gsm/24hr). The higher the figure, the more breathable a material is.

GRS

Global Recycled Standard: An internationally recognised voluntary product standard that verifies the recycled content in a particular product.

SUNGLASSES_

GRILAMID

Lightweight, highly impact resistant, strong and weather resistant plastic, making it suitable for goggle and sunglasses frames.

BIOGRILAMID

A biologically based alternative to Grilamid, developed using plant oils.

GLOSSARY

ENVIRONMENTALLY-CONSCIOUS_

Uses materials or techniques that have less impact on the environment than standard materials or techniques.

DURABLE_

Tougher materials designed to withstand scrapes and minimize the risk of tearing.

LIGHTWEIGHT_

Constructed in ways or from materials that give a lower weight than comparable products.

DYNAMIC FIT

Uses materials with four-way stretch for enhanced freedom of movement and exceptional comfort in the cycling position.

WIND RESISTANT_

Uses fabrics that do not let the wind pass through, giving an effective barrier against the wind.

HIGHLY VISIBLE_

Uses materials or technology to ensure riders are easily noticeable.

AERODYNAMIC_

Materials, design and construction that work to enhance the aerodynamic properties of the garment.

INSULATED_

Uses fabrics or construction methods that trap air to provide insulation.

THERMALLY REGULATIVE_

Uses fabrics with properties to aid thermal regulation.

PACKABLE_

Designed and constructed in a way that allows the garment to be packed and stored in its own pocket.

WATER RESISTANT_

Features a DWR (Durable Water Repellent) treatment for protection from light showers.

IMPACT PROTECTION_

Features materials that can absorb or dissipate impact forces to enhance protection.

BREATHABLE_

Fabric lets air and vapour pass through for exceptional ventilation.

WATERPROOF_

Made from waterproof fabrics and with taped seams for complete protection from the rain.

RECYCLED_

Made from majority post-consumer recycled materials.
