WORKBOOK CYCLING_24

POC is a Swedish protection brand and manufacturer of helmets, eyewear, protection and apparel in snow sports and cycling. The company was founded in Sweden in 2004 and the headquarter is located in Stockholm.

Our mission is to **'PROTECT LIVES AND REDUCE THE CONSEQUENCES OF ACCIDENTS FOR ATHLETES AND ANYONE INSPIRED TO BE ONE'**

HELMETS_
**PROTECTING
THE BRAIN AND
PERFORMANCE**

The brain is a complex organ that controls our emotions, thoughts, motor skills and every process that regulates our body. It's the single most important part of the human body to protect and that is why it's so important to never stop innovating, researching and developing products to protect our brain and performance.

GREAT ALONE, BETTER TOGETHER

To enhance performance and protection, we always design our helmets and sunglasses so they have a seamless fit. The way in which sunglasses and helmets will be used together affects their design so that the specific needs of different kinds of rider can be met.

EYEWEAR & CLARITY LENS TECHNOLOGY

Clarity™ is POC's innovative lens program. Designed to control the color spectrum for enhanced contrast and color definition. All combinations of tints, mirrors and technology have been carefully selected to minimize glare and to utilize the full effect of the base tint benefits. All to ensure vision can stay sharp when riding in extreme conditions, even the changing ones.

CLARITY ROAD

Clarity Road lenses have specific tints that are optimized for the road environment. The lenses increase contrast on the road surface for sharper definition and allow the rider to react earlier to surface irregularities.

CLARITY TRAIL

Clarity Trail lenses have tints which are specifically designed to enhance contrast and boost trail associated colors, such as green and brown. MTB riding is often subject to abrupt changes in light and shadow and as such the lenses are optimized for variable light conditions.

CLARITY UNIVERSAL

Clarity Universal lenses are optimized for all-round use, giving sharper contrast and definition across a broad range of colours and light conditions.

CLARITY PHOTOCROMIC

Clarity Photochromic lenses are clear indoors and darkens automatically when exposed to sunlight. The molecules coated on the lens surface are activated by the sun's ultraviolet radiation, causing the lens to darken based on the prevailing light.

APPAREL_ THE BEST APPAREL FOR EXTREME CONDITIONS

We have grown up riding in harsh and changing conditions, and we've experienced just how decisive the right equipment can be. That is why it's so important for us to create the best apparel for extreme conditions. Without it, it would be impossible for us to enjoy our wonderful surroundings and the world around us.

CONCEPT

GRAVEL ULTRA_
Gravel, secluded roads and unbeaten paths bring freedom for anyone willing to find them. It's a place where nature test your endurance and grit, an arena for both serenity and brutal racing. No matter if your ride takes you around the world or over a finish line, the Ultra collection helps you stay protected from the elements and those hard days in the saddle.

ROAD **THERMAL_**
Riding your bike all year around is not for the faint-hearted. It is cold, dark, wet, muddy and generally speaking, pretty miserable. We have grown up riding in harsh and changing conditions, and we've experienced just how decisive the right equipment can be. The Thermal collection is a tribute to all the stubborn cyclists out there.

ROAD RACEDAY_
We all know that marginal gains are real and that saving seconds takes years. That is why we optimize everything to the point where nothing more can be added or taken away. Whether you aspire to ride in the World Tour or are training for your first sportive, the aerodynamic Raceday collection is designed to perform on the days you need it the most.

M'S ULTRA CARGO
BIB SHORTS

Silk, the world's strongest natural fibre, brings durability and comfort to these bib shorts, helping keep you protected as you discover distant new roads.

DETAILS_

- Reinforced with silk**
Silk thread in the side panels acts as natural reinforcement, enhancing durability and protection in a fall.
- Exceptional wicking properties**
The bibs are effective at wicking moisture away from the body and are quick to dry.
- Strong and stretchy suspenders**
The suspenders only stretch in one direction, giving freedom of movement and security.

- Storage pockets**
Mesh pockets on the leg feature an elasticated envelope opening to keep belongings secure. A pocket to the rear improves carrying options.
- Agility chamois**
The bibs feature the Agility VPDS chamois with silicone inserts for improved vibration absorption and a central channel for improved blood flow. The shorter pad length is ideal for gravel riding.

- Silicone dotted jersey gripper**
The leg grippers are soft jersey and feature silicone dots on the inner to keep the bibs from riding up your legs as you pedal.
- UPF 50+ sun protection**
The bibs keep you protected from the sun, even on longer rides.
- Construction**
Main fabric: 78% polyamide, 22% elastane, woven.
Side panels: 69% polyamide, 29% elastane, 2% silk, woven..

M'S ESSENTIAL
MTB DUNGAREE

Soft, airy and flexible, the Essential MTB Dungarees, bring durability, flexibility and comfort, no matter how you ride.

DETAILS_

- Flexible**
The soft recycled polyamide features 5% elastane for added stretch, giving excellent freedom of movement.
- Durable**
Despite their softness and flexibility, the dungarees are durable, with good abrasion resistance.
- PFAS-free DWR**
The entire garment is water repellent thanks to a PFAS-free DWR treatment that ensures water easily pearls off.
- Good storage**
The dungarees feature two open hand pockets, an accessible back pocket with side entry and a zipped chest pocket.
- Fits with body armour**
There is room for both a back protector and knee pads, and you can still pedal comfortably.
- Shaped for MTB**
A longer back, articulated knees and tapered legs and a gusseted crotch enhance comfort and support excellent freedom of movement.
- Adjustable suspenders**
Elastic, buckle-secured, suspenders over each shoulder are easily adjustable so you can find the perfect fit.
- Adjustable waist**
An adjuster to the rear makes it easy to find a comfortable and secure fit around the waist.
- Zip fly**
A zip fly opening improves functionality for any urgent trail-side stops.
- Construction:**
Main Fabric: 95% recycled polyamide, 5% elastane.
Fabric weight: 152g/sqm.

M'S ULTRA SHORTS

Combine a sense of freedom with the freedom to move comfortably both on and off the bike in these shorts designed for adventure. Adjustable and with a slim fit, these shorts provide comfort and carrying possibilities in equal measure.

DETAILS_

Recycled Materials

The main fabrics used in the construction of the shorts are fully recycled.

PFAS-free DWR

The fabric is treated with a PFAS-free DWR (durable water repellent) to keep you dry in light showers.

Slim style

The slimmer, almost fitted, cut of the shorts gives comfort when pedalling and gives a clean silhouette off the bike.

Adjustable

Adjusters on the waist make it easy to find the right fit.

Storage pockets

An open hand pocket on each leg and a secure card pocket to the rear give plenty of storage.

Works with or without bibs

The shorts can be paired over bibs or worn by themselves.

Construction:

Front fabric: 100% recycled polyester.
Weight: 185g/sqm
Rear fabric: 100% recycled polyester.
Weight: 117g/sqm

W'S ULTRA
JERSEY

Soft, lightweight and with exceptional wicking properties, the Ultra Jersey combines exceptional performance with a more casual, relaxed style.

DETAILS_

- Drirelease® yarn with wool**

The jersey includes drirelease® yarn with wool for enhanced wicking properties, improving the feeling of dryness every time you perform.
- Recycled polyester**

The polyester used in the jersey is recycled.
- Longer cut**

The jersey is slightly longer than a traditional road jersey, giving extra coverage for the slightly more upright position on a gravel bike.
- Lightweight mesh pockets**

The jersey features 3 large rear pockets for all your ride essentials. A smaller zipped pocket is ideal for valuables or a credit card.
- Elasticated bottom hem**

The bottom hem is fully elasticated, helping to keep the jersey securely in place no matter how hard you push.

NEW

ULTRA VEST

The perfect accompaniment to a traditional cycling jersey when looking to carry more for your adventure, the Ultra Vest makes it easy to store everything within easy reach while you ride.

DETAILS_

- Lightweight Mesh**
The vest is constructed from a lightweight mesh and is highly breathable.
- Space for drinks bladder**
The vest has a pocket to store a 2L water bladder and has space to keep a drinks tube secure.
- Accessible pockets**
All pockets on the vest are easily reachable while cycling.

- 4 front pockets**
The front of the vest features four large pockets: two zipped and two open.
- 2 side pockets**
Two smaller open pockets are included under the arms and are ideal for storing smaller items like used food packaging.
- Open rear pocket**
The open pocket to the rear is perfect for stashing a jacket mid-ride.

- Slim fit**
The vest is constructed to give a slimmer, tighter fit, ideal for the demands of competition.
- Elasticated front adjuster**
The elasticated front adjuster system keeps the vest secure and is easy to operate with one hand.

ULTRA BAR BAG 4L

The Ultra Bar Bag makes it easy to reach everything you need on your day-long adventure and is shaped for ultimate comfort with minimal impact on airflow as you ride.

DETAILS_

4L Volume

A volume of 4L makes it possible to carry kit and food supplies for a full day.

Mesh storage pockets

Small mesh storage pockets on the outside are ideal for storing empty snack wrappers.

U-shaped zip opening

The wide, U-shaped zip opening makes it easy to see all your belongings and can easily be operated with one hand while riding.

Internal storage compartments

Three internal mesh pockets help keep your belongings organised and secure.

Cable passage

A small opening in the bag makes it easy to thread a cable for a lamp through, so you can keep the battery pack secure.

Shaped for efficiency

The tapered cube shape of the bag is designed to minimise disruption to airflow around the bike.

Elastic fasteners

The elasticated fasteners are easy to operate and ensure it's possible to quickly find a secure fit on your bike.

Reflective details

Small reflective thread on the zippers and fasteners help ensure others notice you in low light.

Waterproof fabric and zippers

The bar bag is constructed from waterproof fabric and features waterproof zippers. Seams are not water-tight.

Dimensions

Height: 16 cm
Width: 21.5 cm
Depth: 19 cm.

NEW

ULTRA BENTO BAG 0.7L

Ideal for keeping frequently used items within easy reach, the Ultra Bento Bag has just enough space for the bare essentials on any ride.

DETAILS_

0.7L Volume

The small volume of the bag is ideal for a few essentials on any ride.

Internal storage compartments

Two internal mesh pockets help keep your belongings organised and secure.

Cable passage

A small opening in the bag makes it easy to thread a cable for a lamp through, so you can keep the battery pack secure.

One-handed zip opening

The zip pull is easy to use one-handed, and the bag is shaped so the zip opens and closes smoothly, even while riding.

Elastic fasteners

The elasticated fasteners are easy to operate and ensure it's possible to quickly find a secure fit on your bike.

Reflective details

Small reflective thread on the zippers and fasteners help ensure others notice you in low light.

Waterproof fabric and zippers

The bag is constructed from waterproof fabric and features waterproof zippers. Seams are not water-tight.

Ultra Snack Bag 1L
Uranium Black

NEW

ULTRA SNACK BAG 1L

Fuelling is essential for going further, and the Ultra Snack Bag makes it easy to keep your nutrition within easy reach at all times.

DETAILS_

- 1L Volume**
The volume of 1L gives enough space to carry snacks, gels and food supplies, or alternatively a wide-necked bottle with diameter up to 89mm.
- External Mesh Pockets**
Small mesh storage pockets on the outside are ideal for storing empty snack wrappers.
- One-handed opening**
The one-handed drawstring makes it easy to both open and close the bag while on the move.

- Waterproof fabric**
The bag is constructed from water-proof XPac Rx15 fabric. The seams and top opening mean the bag is not completely watertight.
- Elastic fasteners**
The elasticated fasteners are easy to operate and ensure it's possible to quickly find a secure fit on your bike.
- Reflective details**
Small reflective thread on the zippers and fasteners helps ensure others notice you in low light.

- Multiple attachment points**
The bag can easily be attached around the handlebar or head tube.
- Drainage hole**
A small drainage hole at the bottom of the bag ensures liquid can escape if a bottle leaks.

DESCRIPTION_	Dynamic bib shorts for comfort and performance on long or short rides.	Optimized for performance on training and longer rides.	Optimized for performance on training and longer rides.	Highly ventilated, these are the ideal under-layer or indoor training bibs.	With suspenders that can be crossed on the front or back, it's easy to find a comfortable fit.
CHAMOIS TYPE_	M's Multi D	M's Catalyst	W's Catalyst	M's Catalyst	W's CATALYST
GRIPPER_	10 cm-wide jersey with silicone.	6.5 cm-wide jersey with silicone.	6.5 cm-wide jersey with silicone.	5cm-wide perforated elastic.	4,5cm wide jersey silicone
MATERIAL_	Breathable fabric with compression feel. Flatlock seams.	Breathable lightweight fabric.	Breathable lightweight fabric.	Highly ventilated, lightweight mesh with storage pockets on thigh.	Stretch fabric with compression feel. Flatlock seams.
SUSPENDER_	Elasticated, breathable, seam-free mesh.	Elasticated, breathable mesh.	Reversed suspender with overlap design and extreme stretch for easy toilet breaks.	Highlight ventilated, lightweight, stretchy mesh.	Flexible suspender solution can be worn in multiple ways.
SAFETY_	Reflective details.	Reflective details.	Reflective details.	N/A. To be worn as under-garment.	Reflective details

CHAMOIS_

The addition of silicone-based VPDS in the chamois pad is what makes our bibs truly unique. The silicone aids shock and vibration absorption, enhancing comfort: vital when sitting for longer periods of time.

CONTOUR

- 3D-molded silicone-based VPDS inserts for reduced vibration and enhanced anatomic support.
- 3D-shaped for maximum support and comfort.
- Seamless design for comfort and support.
- Additional support in the frontal area.
- Bacteriostatic properties to keep the pad fresher for longer.
- Features recycled top fabric

M'S & W'S MULTID

- Silicone based pre-cut VPDS inserts for reduced vibration and enhanced anatomic support.
- Seamless design for comfort and support.
- Perforated base layer for maximum ventilation.
- The fabric has bacteriostatic properties, which will keep your pad fresh over a longer time.
- Features recycled top fabric

AGILITY

- Silicone-based VPDS chamois developed for ergonomic and shorter saddles, and optimized for gravel and adventure riding.
- High-density zones support full pelvic rotation.
- Central channel supports blood flow and reduces pressure in the perineal area.
- A layer construction gives a slim profile for a precise connection to the bike, optimum feel and support.
- Superior breathability and moisture management thanks to enhanced perforation across the chamois
- Features recycled top fabric

VITAL

- Longer pad gives additional support in the frontal area.
- Silicone based pre-cut VPDS inserts for reduced vibration and enhanced anatomic support.
- Seamless design for comfort and support.
- The fabric has bacteriostatic properties, which will keep your pad fresh over a longer time.
- Features recycled top fabric.

W'S PURPOSE

- High-density padding at the front and silicone at the rear improves support for the pubis and ischium, enhancing comfort in an aggressive road cycling position.
- VPDS silicone inserts lift the ischium improving support, absorbing vibrations and giving a more comfortable position on the saddle.
- A large central cavity enhances comfort and allows for improved bloodflow in sensitive areas.
- Perforated cushioning enhances breathability and moisture control.
- Bacteriostatic properties keep the pad fresher for longer.

M'S & W'S CATALYST

- Silicone based pre-cut VPDS inserts for reduced vibration and enhanced anatomic support.
- Seamless design for comfort and support.
- The fabric has bacteriostatic properties, which will keep your pad fresh over a longer time.
- Features recycled top fabric

M'S & W'S VPDSLITE PAD

- 3D-molded silicone-based VPDS enhances anatomic support and improves pressure absorbency.
- Optimized for a more static position on the bike: slimmer, longer profile.
- Airy and perforated 3-layer pad for optimal breathability.
- Bacteriostatic properties keep the pad fresher for longer.
- Top-layer fabric optimized for indoor comfort – dries 2x faster than other pads so you feel drier for longer.

HELMETS_

ABS: ACRYLONITRILE BUTADIENE STYRENE

A very hard plastic used in the helmet shell. It is widely known for its impact resistance, strength and durability.

PC: POLYCARBONATE

Stiff and strong material used in the helmet shell. It is well suited to thermoforming to give a secure bond with the helmet liner.

EPP: EXPANDED POLYPROPYLENE

A helmet liner material that can withstand multiple impacts, dependent on the severity of the impact. EPP liners tend to be thicker than EPS liners.

TWICEME® NFC MEDICAL ID

The twiCEme® NFC Medical ID is an NFC chip located inside the helmet. By using the associated app, wearers can upload their vital info and emergency contact details directly to the helmet. These can then be read by first responders—or anyone—with a smartphone at the scene of an accident.

EPS: EXPANDED POLYSTYRENE

The traditional helmet liner material found in most helmets (from all manufacturers). Will compress under force, and tends to only be suitable for one crash. Lighter than EPP. EPS liners can be thinner than EPP liners because EPS has better impact resistance in terms of volume of material used.

ARAMID

Exceptionally strong synthetic fibers that provide unsurpassed protection against penetration and enhance the structural stability of a helmet.

FIBERGLASS

Strong and lightweight material used in the helmet shell. Highly durable and well suited to thermo-forming, to give a secure bond with the helmet liner.

CARBON FIBER

Exceptionally lightweight and very strong material used in the helmet shell.

UNIBODY SHELL

Where the helmet shell works as a monocoque to give extra strength and stability to the entire helmet.

ARMOR

VPD: Visco-elastic polymer dough

VPD is our highly flexible protective material, visco-elastic polymer dough. VPD retains its impact absorption ability regardless of number of impacts. VPD is malleable and shapes to the form of your body for a unique and flexible fit, only hardening on impact for enhanced protection

ARMOR_

VPD

VPD is our highly flexible protective material, visco-elastic polymer dough. VPD retains its impact absorption ability regardless of number of impacts.

VPD is malleable and shapes to the form of your body for a unique and flexible fit, only hardening on impact for enhanced protection.

APPAREL_

CERAMIC PRINT

Small ceramic dots printed on a fabric to enhance durability and crash protection. The dots work to minimize friction between rider and road surface in a fall, thereby minimizing road rash and reducing damage to the garment itself.

VECTRAN

Vectran, a material around 5x stronger than steel, is a liquid crystal polymer much like a strengthened polyester. Its high tensile strength gives excellent cut, tear, abrasion and puncture resistance.

CORDURA®

A high-Denier nylon yarn used for its exceptional durability and abrasion resistance.

AERO FABRIC

A textured fabric designed to minimize drag and make a rider more easily slip through the air.

VPDS

VPDS is our Visco-elastic Polymer Dough blended with silicone. Developed for its exceptional vibration dampening effect, we use VPDS in our bib short chamois to help deliver a smoother ride.

DWR

Durable water repellent. A treatment used on our apparel to prevent water being absorbed by the material. The DWR ensures liquid pearls off the material surface for water repellency, not complete waterproofness.

WATER COLUMN

The water column indicates the level of water pressure a fabric will tolerate before any water will pass through. The higher the water column, the more waterproof the material is.

BREATHABILITY

The level of water vapour that a material will allow to pass through. Generally the measure is given in grams per square meter per 24hours (gsm/24hr). The higher the figure, the more breathable a material is.

GRS

Global Recycled Standard: An internationally recognised voluntary product standard that verifies the recycled content in a particular product.

GRILAMID

Lightweight, highly impact resistant, strong and weather resistant plastic, making it suitable for goggle and sunglasses frames.

BIOGRILAMID

A biologically based alternative to Grilamid, developed using plant oils.

SUNGLASSES_

GLOSSARY

PFC-FREE DVR

RECYCLED POLYESTER

BIO-GRILAMID

RECYCLED POLYAMIDE

ENVIRONMENTALLY-CONSCIOUS_

Uses materials or techniques that have less impact on the environment than standard materials or techniques.

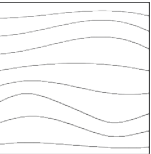

DURABLE_

Tougher materials designed to withstand scrapes and minimize the risk of tearing.

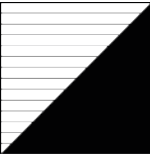

LIGHTWEIGHT_

Constructed in ways or from materials that give a lower weight than comparable products.

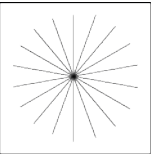

DYNAMIC FIT

Uses materials with four-way stretch for enhanced freedom of movement and exceptional comfort in the cycling position.

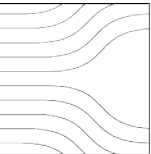

WIND RESISTANT_

Uses fabrics that do not let the wind pass through, giving an effective barrier against the wind.

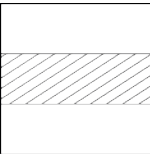

HIGHLY VISIBLE_

Uses materials or technology to ensure riders are easily noticeable.

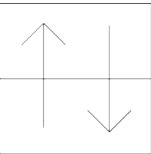

AERODYNAMIC_

Materials, design and construction that work to enhance the aerodynamic properties of the garment.

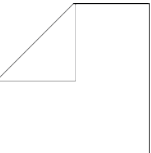

INSULATED_

Uses fabrics or construction methods that trap air to provide insulation.

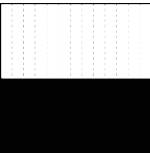

THERMALLY REGULATIVE_

Uses fabrics with properties to aid thermal regulation.

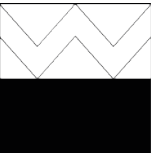

PACKABLE_

Designed and constructed in a way that allows the garment to be packed and stored in its own pocket.

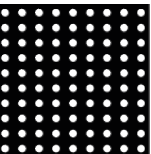

WATER RESISTANT_

Features a DWR (Durable Water Repellent) treatment for protection from light showers.

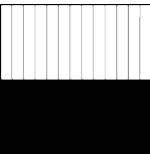

IMPACT PROTECTION_

Features materials that can absorb or dissipate impact forces to enhance protection.

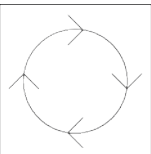

BREATHABLE_

Fabric lets air and vapour pass through for exceptional ventilation.

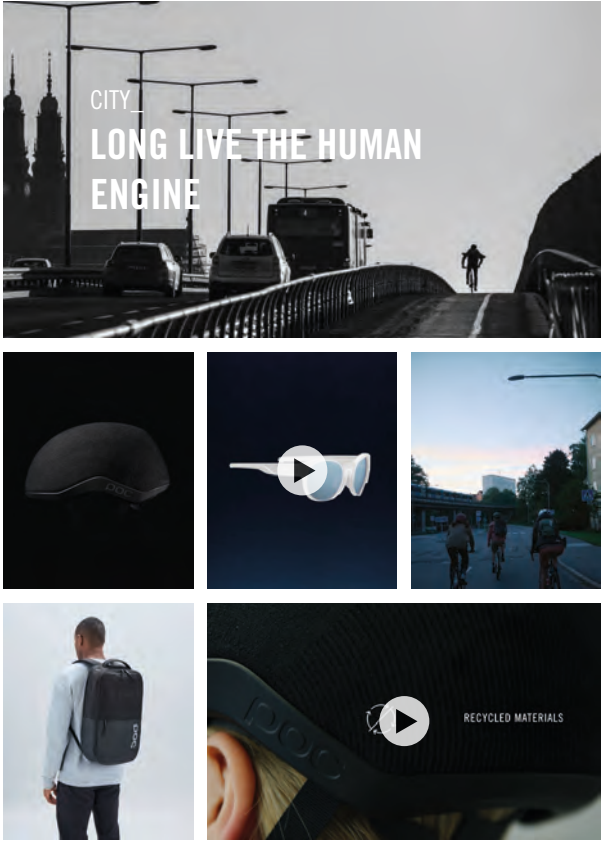

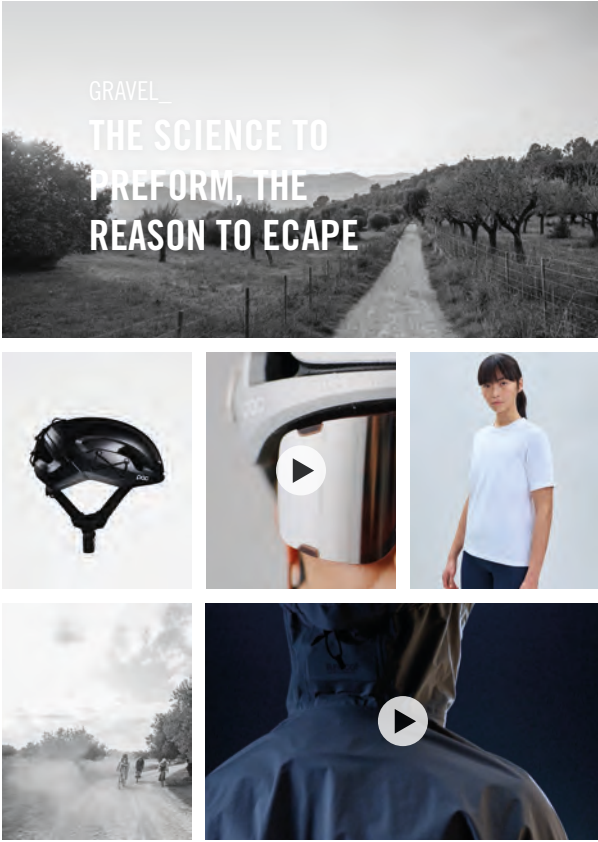

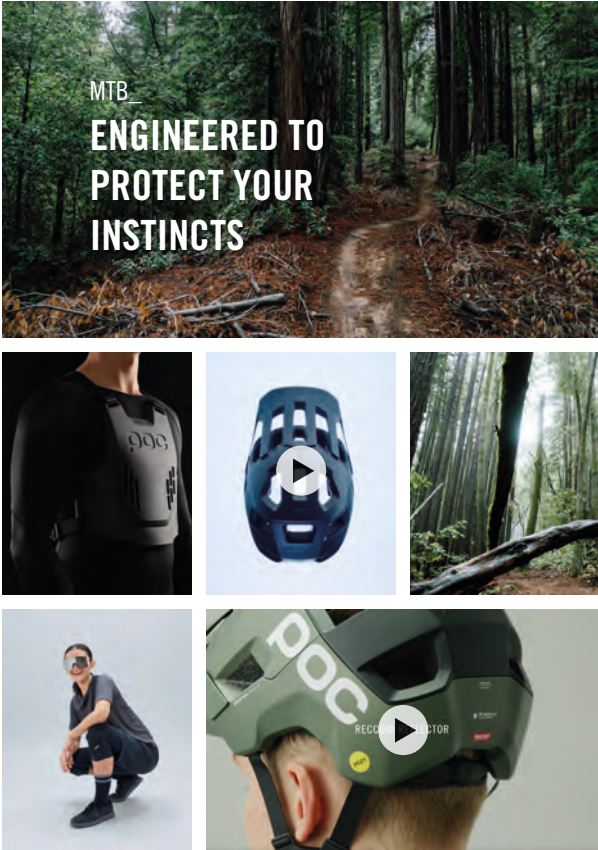

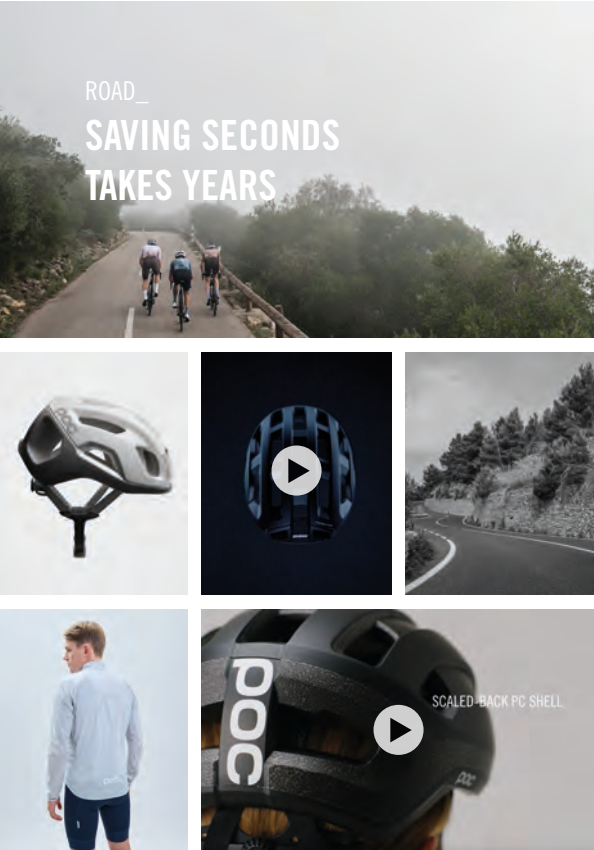

WATERPROOF_

Made from waterproof fabrics and with taped seams for complete protection from the rain.

RECYCLED_

Made from majority post-consumer recycled materials.
